

VOIDARA

REVOLUTIONIZING DIGITAL ASSISTANTS

AI-Powered Personal Butler for Everyone

VOIDARA BUSINESS PRESENTATION

Vision & Mission

Our Vision

We aim to revolutionise everyday digital life with Voidara – an AI-powered personal butler that makes users' lives easier, more efficient, and more successful. Through continuous learning and personalised adaptation, Voidara becomes a tailor-made digital assistant that supports users in all areas of life and delivers real added value.

Key Messages

Personalised AI support

24/7 availability and continuous learning

Digital butler for every aspect of life

Genuine time savings and added value in everyday life

Today's Challenges

The Digital Overload of Everyday Life

Information Overload: Every day, we are confronted with thousands of pieces of information and must separate the relevant from the irrelevant ourselves.

Digital Fragmentation: Dozens of apps and services with no central control or coordination.

Wasted Time: Hours spent researching the best deals, prices or services.

Lack of Personalisation: Standardised digital solutions that don't adapt to individual needs.

We don't need more apps – we need an intelligent assistant that simplifies our digital world.

VOIDARA

Your Personal AI Agent

A highly advanced AI agent that continuously adapts to your needs and supports you in all areas of life.

Available as an app on Android, iOS, and as a web app

Core Functions

What can your AI agent do?

24/7 availability

Personal assistant for appointment management, organisation and information gathering.

Personalised recommendations

Product suggestions based on your individual preferences and needs.

Social-Media-Management

Automatic message replies and post creation for WhatsApp, Facebook, and Instagram.

Special offer analysis

Finds the best deals and offers, tailored precisely to your interests.

Your Personalised AI Agent

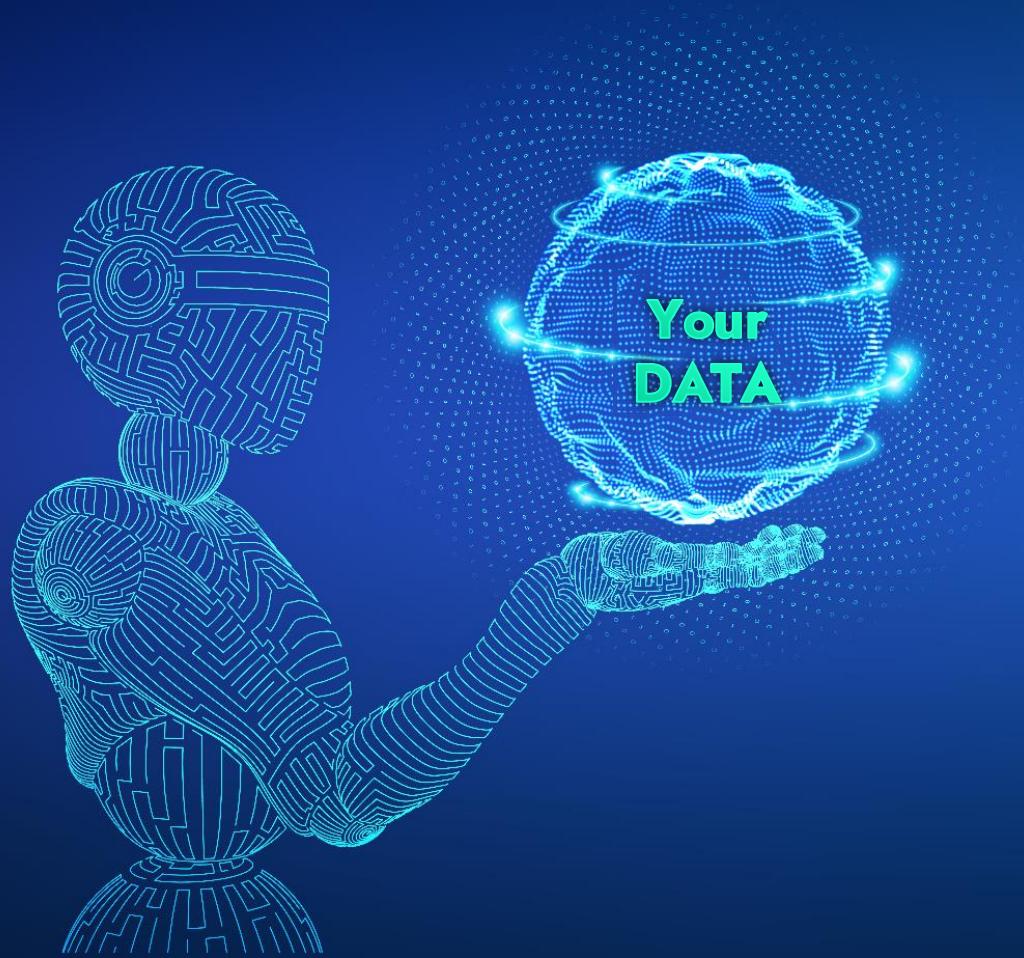

Personalisation options

Data Security

We strictly adhere to Microsoft Azure OpenAI security standards:

Your data is fully protected – both in transit and at rest – with advanced 256-bit AES encryption.

All interactions are logically isolated, encrypted via TLS 1.2, and secured within a trusted computing perimeter.

Your data remains entirely within your Azure tenant – under your control, always.

Areas of application

–Part 1

Health & Fitness

- Creates personalised diet and nutrition plans
- Develops training routines and keeps you motivated
- Tracks your progress and adjusts plans accordingly

Social Media

- Manages your profiles and messages
